Register Now for the Global Animal Health Conference

DIA and IFAH are hosting the third Global Animal Health Conference: **Developing Global Animal Health Products to Support Food Security and Sustainability**, which will provide a platform to discuss methods of maximising the development and use of animal health products to support food security and sustainability.

Join thought leaders from government, academia, industry, and international organisations to discuss global challenges of animal health product development and share opportunities for global regulatory convergence to ensure access to safe and effective medicines.

Where: [Sheraton Crystal City Hotel](#), Washington DC, US

When: 17-18 October 2013

Register now via: diahome.org/AnimalHealth
